Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner indicated that claim 28 was incomplete for failing to include the pressure applying means, such means facilitating the cold forging of the workpiece. Accordingly, a new paragraph(iv) was added to complete the subject matter. Claim 31 was amended for clarity purposes due to the inclusion of the pressure applying means in claim 28. Similarly, claim 45 was amended to correlate the action of the pressing piston to the forging pressure..
